

JUNIOR / MID-LEVEL / SENIOR

WEB DEVELOPER BERLIN - Full Stack Front End / Back End - Vue.js Laravel - Software Engineer (m/f/d)

CHEQSITE is a first-rate startup that develops cutting-edge business software for asset management, maintenance and work equipment inspections. Our broad customer base includes SMEs and well-known companies from various sectors of the economy and the manufacturing industry. We love to work with the latest tools and technologies and welcome everyone who is eager to learn and create the next level applications that exceed our customers' expectations.

Job ad in German, please visit our Site www.cheqsite.de.

ABOUT THE JOB

You program frontend and backend modules of a Laravel (PHP) and vue.js based asset management and maintenance software. The software is customized for different customers, i.e. you may work in different projects on the same core code. Special focus is on the user experience and the user interface design (GUI). The web application synchronizes with native Android (Java) and iOS (Swift) applications so that inspections can be performed on-site. We look forward if you want to extend your skillset in the mobile development direction in the future. Further, we use Amazon Web Services (AWS), Microsoft Azure Cloud, ActiveMQ, and many other services and technologies to provide our service.

YOUR PROFILE

- ▶ Joy in programming web applications; you've done it in the past and you want to do it in the future. We are looking for genuine software developers who code.
- ▶ You have worked with one modern web application and JavaScript framework, such as Laravel, Vue.js, Angular, Django, React, Ember.js, Node.js, Symfony, Zend, etc.
- ▶ Basic knowledge of relational SQL and NoSQL databases, such as MySQL, SQLite, Couchbase or MongoDB.
- ▶ Eager to learn and grow your development skills; we do also develop native Android and iOS apps in Java, Swift and Objective-C.
- ▶ Fluent in German or English.

WHY YOU'LL ENJOY WORKING WITH US

- ▶ You work in a small team of lighthearted, down-to-earth developers that know their business.
- ▶ We welcome and we need your ideas and suggestions to improve the solution.
- ▶ Your work matters! Each developer contributes to significant parts of the software system; you see the results of your work in the final product.
- ▶ We respect each individual's work-life balance and provide space for professional and personal growth.
- ▶ We appreciate a stress-free office environment with space for food, sports and gaming.

CONTACT US

Please send us a message to develop@cheqsite.de. We are looking forward to meeting you personally. Please also attach your résumé and tell us when you would like to start working with us at the earliest and how much you would like to earn.

We welcome fullstack web developers (Web Entwickler), software developers (Softwareentwickler), computer science scientistst (Informatik, Informatiker, Medieninformatiker, IT Ingenieure), game designers, mobile app developers, or everyone with a comparable education or skill-set to the team.
