

FULL-TIME / PART-TIME

FULL STACK SOFTWARE DEVELOPER (M/F/D)

Focus Back-End or Front-End - Programmer - Engineer

We are looking for experienced developers and aspiring programming talents who want to implement our next generation software and grow together with us.

Short decision-making processes, freedom to create and professional support from us enable you to implement your and our ideas in the best possible way. With us, it's the attitude that counts, not the age.

CHEQSITE produces modern apps for the safety inspection and maintenance of equipment and facilities. Our apps are in use at numerous companies from various sectors, including industry, logistics, construction, retail, etc.

Working for us is varied because we implement numerous customer-specific research and development projects using innovative technologies and tools.

Job ad in German, please visit our Site www.cheqsite.de.

THESE TASKS ARE AWAITING YOU

- ▷ Your focus is on programming frontend modules with modern JavaScript frameworks and / or programming backend modules with popular PHP, Python or Java frameworks.
- ▷ Our web applications and desktop applications are synchronized with native Android and iOS apps (Swift). It is therefore possible to extend your skills towards mobile development.
- ▷ In research and development projects, we rely on cross-platform development, augmented reality (AR), artificial intelligence (AI) and machine learning (ML), among others.
- ▷ We also use Amazon Web Services (AWS), Microsoft Azure Cloud, Google Firebase and many other services and technologies to deliver our services.

YOUR SKILLS AND INTERESTS

- ▷ You enjoy programming and creating innovative software solutions.
- ▷ You have already shown your skills in a professional environment and you are interested in always expanding your skill set.
- ▷ You have already worked with a modern JavaScript web framework, such as Vue.js, React, Angular, Ember.js, Node.js, etc.
- ▷ You have experience with a popular PHP, Python or Java framework, such as Laravel, Django, Symfony or Java Spring Boot.
- ▷ You are familiar with SQL and NoSQL databases, such as MySQL, SQLite, Couchbase or MongoDB.
- ▷ Fluent German or English is required for communication

We are very happy to welcome fullstack web developers with focus on frontend or backend, computer scientists, IT engineers, application developers, game programmers, mobile developers and graduates of Computer Science (Scientist), Informatics, Media Informatics, Electrical Engineering or just crass programmers with appropriate skills to the team.

WHY YOU WILL ENJOY WORKING WITH US

- ▷ Your ideas and your work are appreciated. Every developer contributes to recognizable parts of the software systems.
- ▷ Short decision-making processes and professional support on our part bring you and us faster to our common goal.
- ▷ We respect work and private life and offer room for professional and personal development. There is no weekend work.
- ▷ A stress-free office environment with space for food, music, sports and games is available. Our offices are also air-conditioned.

SOUNDS EXCITING?

Then send us your CV to develop@cheqsite.de and we will get in touch with you. We look forward to getting to know you!
